TRANSMITTAL LETTER FOR THE SAMPLING PLAN FOR SOIL BENEATH 2000 GALLON
WASTE OIL TANK REMOVED 23 MAY 1988 NWS EARLE NJ
9/7/1989
JACA CORP

Environmental Consultants • Engineers

September 7, 1989

Mr. William Matthaey
Naval Weapons Station Earle
Public Works Department, Bldg. C-29
Colts Neck, NJ 07722-5000

Dear Mr. Matthaey:

Enclosed are 3 copies of a sampling plan for the soil beneath the 2,000 gal. waste oil tank that was removed on May 23, 1988. The plan calls for taking 4 samples and one duplicate at the locations chosen for the samples taken when the tank was removed, using a split spoon sampling rig. Both sampling and analysis will be done using New Jersey Department of Environmental Protection Tier I protocols.

JACA Corp. will schedule the sampling as soon as you receive approval of the plan from the DEP. By copy of this letter a copy of the plan is transmitted to Mr. Brian Helland at the U.S. Naval Base at Philadelphia. If you have any questions or comments, please do not hesitate to call.

Sincerely,

ROGER R. ELLEFSON, P.E.
Senior Chemical Engineer
